EDUCATION
University of Minnesota
Bachelor of Arts, Computer Science   Minors in English, Mathematics
GPA: 3.75/4.0   Graduated May 2016, summa cum laude

University of Limerick – Study Abroad Semester   Limerick, Ireland

SKILLS
- Experience with C, C++, Java
- Knowledge of x86 assembly, Python, OCaml
- Understanding of software design principles: object-oriented design, modularity, information-hiding, loose coupling, design patterns, etc.

WORK EXPERIENCE
Undergraduate TA (Computer Science Department)   **University of Minnesota**
September 2015 to May 2016
- Led lab sections with other TAs and guided students through practical uses of classroom concepts.
- Met one on one with students to help them debug code and come to clearer understandings of class topics.
- Was consistently praised on anonymous student assessments of the course.

Student Supervisor   **University of Minnesota Parking and Transportation**
December 2014 to September 2015
- Responded by phone to questions and concerns, facilitating customer satisfaction and avoiding revenue loss.
- Directed reports of damaged equipment to appropriate staff, ensuring smooth operation of parking facilities.
- Performed miscellaneous clerical office tasks to aid productivity of the office as a whole.

Wilderness Guide   **Camp Amnicon**
June 2014 to August 2014
- Led junior/senior high school students on week-long canoe trips, providing a unique wilderness experience and maintaining safety.
- Facilitated group discussions on various themes, providing campers with a safe space to explore challenging issues.
- Dynamically addressed physical, logistical, and emotional problems as they arose, allowing campers to focus on learning and having fun.
